

## *Certificate of Completion*

THIS CERTIFIES THAT  
***CALEB FELLOWES***

has participated in the following education session:

**Competency: Peripherally Inserted Central Venous Catheter  
(PICC) Management**

Presenter The Nursing CPD Institute

In this session you will:

- Receive contemporary information to support Peripherally Inserted Central Venous Catheter (PICC) nursing management
- Gain knowledge regarding the key processes to follow to reduce the potential of PICC line complications
- Receive information to support your understanding of why specific processes must be followed in the management of a PICC
- Gain knowledge to ensure that your workplace related policies and practices reflect contemporary management of PICC's

Completed on

**03 April 2019 (duration of 1 hour/s)**

**This equates to 1 CPD Hour/s (Continuing Professional Development)**

### REFLECTION:

Peripherally Inserted Central Venous Catheters ( PICC ) are increasingly common and nurses who manage clients with a PICC are required to adhere to contemporary work practices to minimise the potential risks of in particular infection for the client.
